Reminiscent of lush textiles from nomadic cultures, our jacket plays with both color and shape. A multitude of jewel tones blend through half linen stitch, while sections of dusky ebony provide slimming vertical stripes. Short rows build swing into the architecture of the jacket, while the contrast of reverse stockinette and half linen stitch form gentle flutes to emphasize the shape. Abbreviated twisted cord fringe adds a boho/couture touch and provides a neat way of handling multiple colors as fringe is cut and tied every other row: thus few ends to bury!

Painting with yarn allows you, the knitter, to be in charge of your own long-repeating color gradations. Three strands of Delicato held together offer superior softness and drape, allowing the oversized nature of the vest and jacket to fit and flatter. Mix your palette up and don't forget a POP! color to frame the panels and accentuate the diagonal lines.
